

AI/Ethics & Communications

At 1datapipe®, we are committed to acting with integrity and accountability in everything we do. We encourage anyone to raise concerns or report behaviour that doesn't feel right, whether related to AI incidents, ethics, compliance, or our standards of conduct.

All concerns are taken seriously, handled confidentially, and reviewed independently to ensure they are addressed appropriately and without retaliation.

You can complete the form [here](#) or contact us via email [here](#).
